## One-Step Polish 3in1 - Cut, Gloss & Wax -

**Product Description** 

Menzerna 3 in 1: One-step polish, high-gloss finish and wax in a single product. 3 in 1 works like a medium sanding polish and removes 3000 grit and finer sanding marks by machine. 3 in 1 reliably removes streaks and clouding. It is applied as a wax with rotative, eccentric polishing machines or by hand.

## **Recommended Usage**

- 1. Clean surface thoroughly prior to polishing.
- 2. Shake the bottle prior to use and apply a small quantity of the product onto the polishing pad (a pea-sized drop is sufficient for an area measuring approx. 40 x 40 cm).
- 3. Use the Menzerna Medium Cut Foam Pad to remove scratches, sanding marks on fresh coating and signs of use or washing. If using a new or dry pad, apply sufficient polish to prevent the formation of noticeable holograms.
- 4. Use either a rotary or an orbital polishing machine and use the cross-coating method. Apply light pressure at the start of the polishing process. Take away the pressure in the final cycles and increase the speed of the polishing machine by 10%.
- 5. At first, the polish will seem a little greasy and should be worked in until only a slightly transparent/oily film is visible.
- 6. Once you have finished polishing, remove any residue with our Premium Microfiber cloth, without applying any pressure.
- Scratches and signs of use/washing have now been removed.
  Whatever the demands of the surface: Reapply Menzerna 3in1 with the Soft Cut Foam Pad or the Wax Foam Pad in order to achieve a high-gloss finish.
